RING IN THE NEW YEAR WITH GOOD HEALTH

Staying healthy begins with good practices. Proper nutrition, physical care, and a positive mental outlook are all important. Selecting the right foods and proper supplements can be a challenge. Creating a dietary plan for selecting fresh foods and quality supplements when possible can make a difference. Learn more about how to select quality supplements here:

<https://www.quality-supplements.org/>

<https://info.nsf.org/certified/dietary/>

Remember to take all supplements with food and talk to your Pharmacist about medication you are currently taking and how those supplements may affect them. January is CBD month. CBD is a substance in cannabis that does not have psychoactive effects and is available without a physician's recommendation or prescription. Speak to one of our Medical Technicians today about products that have CBD in our store. Talk to your Doctor when considering fresh herbs, massage, cupping, regular exercise, yoga, meditation, and light therapy as part of your journey to health in 2025.
